WORK EXPERIENCE

Predis.ai – AI Powered Content Automation Platform (SaaS) *Nov '25 - May '26*
Product Management Intern

- Led product discovery for the **Reference Image** feature, enabling users to recreate ads using Predis.ai's catalogue or their own reference images.
- Conducted **user research**, translated insights into PRDs and user flows, and collaborated with design and engineering teams to refine requirements and launch the feature.
- Analyzed **user behavior and onboarding funnels** using Mixpanel, SQL and Microsoft Clarity to identify friction and drop-off points.
- Designed and A/B tested an **in-product cross-format nudge**, driving a **23% relative improvement in user retention**.
- Created **wireframes and interactive feature prototypes** in Figma and Lovable to communicate and validate product concepts.

EDUCATION

Welingkar Institute of Management and Research, Mumbai *2026-2028*
PGDM (MBA)
S.I.W.S College of Arts, Science and Commerce *2022-2025*
BSc Computer Science
S.I.E.S College of Arts, Science and Commerce *2021-2022*
HSC

PROJECTS

TryApprove – Client Approval & Collaboration Platform (SaaS)

- Built a client portal for agencies and freelancers to manage **client approvals, feedback and collaboration** in one place.
- Spoke with **agency owners and freelancers** to understand their workflow and identified problems with managing client approvals and feedback.
- Acquired **100+ users** through SEO, Instagram and outbound outreach while using user feedback to improve the product.
- Converted early users into paying customers, generating **$235 in revenue and $78 MRR** at the MVP stage.

BlurTab - Privacy Browser Extension

- Identified a user privacy problem during screen sharing and built a browser extension to hide sensitive information from being exposed on screen.
- Launched the product and acquired **50+ users through organic channels**, using early adoption to validate the problem-solution fit.
- Collected and incorporated **user feedback** to identify usability gaps and iteratively improve the product experience.
